

Tread widths for the “Supreme” stairway

The minimum aperture width is 525 mm. If however, there is a greater width available, then wider treads can be supplied.

Treads which are between 200 mm to 380 mm wide are 140 mm deep, and treads between 430 mm to 560 mm are 160 mm deep.

Aperture width (mm)	Tread width (mm)
525-574 mm	200 mm
575-604 mm	250 mm
605-624 mm	280 mm
625-674 mm	300 mm
675-714 mm	350 mm
715-754 mm	380 mm
755-814 mm	430 mm
815-914 mm	480 mm
915 mm and over	580 mm

These dimensions apply to the standard model only. Please contact us for details regarding tread widths for all other models e.g. F30 and F90 etc
