

Vertical Loft Ladders...

Supreme Vertical loft ladder

...lightweight, strength and durability

The Supreme vertical loft ladder is specially developed for vertical installation. It is manufactured from quality die-cast aluminium alloy components for strength and light-weight operation. The wooden hatch box and insulated trapdoor provide excellent energy efficiency.

- Heavy duty ladder, rated to 200kg per tread.
- Ease of use, requiring operating forces of less than 3kg.
- Fully insulated hatch
- Large treads with anti-slip profile for comfort and safety.
- Available in made-to-measure.

Elite Vertical loft ladder

...strength, durability and ease of operation

The Elite Vertical features a damped hinge mechanism to allow the Elite loft ladder to be utilised in vertical applications, such as on a mezzanine floor or in a wall hatch. It is manufactured from high quality die-cast aluminium alloy components for strength and durability.

- Heavy duty ladder, rated to 200kg per tread.
- Ease of use, requiring operating forces of less than 3kg.
- Easy to install.
- Space-saving retractable loft ladder for small openings.
- Large treads with anti-slip profile for comfort and safety.
- Telescopic handrail as standard.
