

Piccolo Premium Vertical

Overview

The Piccolo Premium Vertical loft ladder is easy to install and made from aluminium alloy components. The ladder's compact, space-saving concertina design makes it perfect for small wall openings or for use on a mezzanine floor.

The counter-balance spring mechanism make the Piccolo Premium Vertical safe and easy to use. Furthermore, the special damped hinge mechanism allows the ladder to be stowed away from the edge of the aperture or hidden behind a door (door thickness up to 40 mm).

Spring-Assisted | Compact | Light Weight | Ease of Use | Space-Saving

Product Materials & Finish

- Extruded aluminium ladder structure
- Natural finish steel fixings throughout
- Treads; 280mm / 330mm wide x 80mm deep
- Non-slip feet included as standard
- Operating pole included as standard

Performance

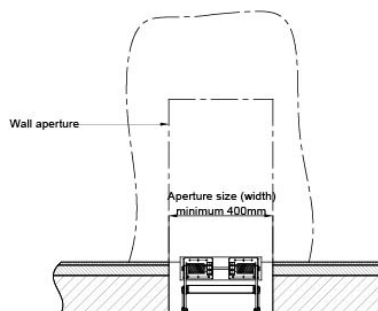

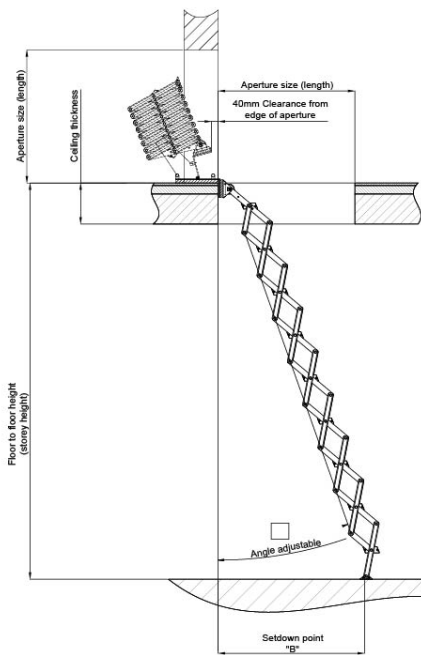

- Light weight
- Easy to install
- Load capacity of 150 kg per step

Optional Accessories

- Telescopic handrail
- Spring hardware set (for existing trapdoor)

Quality

- Manufactured and tested to EN 14975 (certified by TÜV SÜD).
- Supplied with a manufacturer's 2-year full warranty and 10-year parts warranty.

Aperture length depends on the number of treads		Space required in cm	
Treads	Aperture size (length) min.cm	Floor to ceiling height "A"	Set down with a point = 20" "B"
9	71	200 - 225	82 - 91
10	78	225 - 250	91 - 100
11	82	250 - 275	100 - 109
12	86	275 - 300	109 - 118

Custom Widths	
Aperture size (width) min.cm	Tread width
40	28
45	33

Drawings not to scale.

Environment and sustainability

Red listed components - none

Recyclability - Aluminium components can be easily recycled when product reaches end of life
